

For 4 consecutive Saturdays starting on March 15 at 10:00 am, a different riddle will be posted on our hunt web page. Each riddle will be made up of 5 stanzas with each stanza being a separate riddle. Solving the riddles will take participants on a journey throughout a town in Connecticut to the final location of a hidden engraved tag. There will be 4 individual hunts (1 per week) throughout 4 separate towns in Connecticut leading to 4 separate tags. Each tag can then be exchanged for one of the diamond pendants. There is no limit to the number of tags any person(s) can find.

Since we really do want to give away all 4 pendants, if nobody finds the tag for the active hunt by 10:00 am on the following Tuesday, we will begin posting the answers to stanza riddles 1 through 4 on our hunt web page and Facebook page for 4 consecutive days. We have confidence that after releasing the answer to the 4th stanza riddle, it will then be a mad dash to the final spot...speaking of which, please don't mess up any of the towns or break any laws trying to get to the tags. We are also giving away an additional \$1,000 gift card to Pennachio Jewelers to the winner who finds their tag the quickest. Additional information can be found on our hunt web page.

Oh, and by the way, for the entire month of April we will also be having a Storewide Anniversary Sale. Sorry, we can't give anything else out for free as we do have bills to pay, but we are offering some very nice discounts over our already everyday low prices so stop by to take advantage of this once a year sale!!!

Also, remember to "Like Us" on Facebook to solve practice riddles for prizes, be notified when information is posted, and monitor progress of the hunts. We may even post some hints there from time to time.
